Agricultural Proficiency Award Program

This award program recognizes excellence in a supervised agricultural experience (SAE) program. Students can apply in two award categories. One category is “placement (P)” for work or experience-only programs, such as working at a nursery or as an employee on a hog farm. The other category, called “entrepreneurship (E),” is for programs that involve ownership of an agricultural production or agribusiness. An example would be crop or livestock production. The individuals who receive a Gold* Rating were declared state winners and have been certified to compete at the national level.

*(Please note there may be several gold ratings in a category and the state winner is designated with a *.)*
